

Fernando Augusto Santos

SENIOR SOFTWARE ENGINEER · TECHNICAL CONSULTANT

Florianópolis, Brazil · +55 (11) 97262-5933 · fstrony@gmail.com · fstrony.github.io · [LinkedIn](#) · [GitHub](#)

PROFILE

Senior Software Engineer and Technical Consultant with 10+ years of experience across backend engineering, APIs, integrations, databases, cloud platforms and legacy modernisation. Strongest focus on Java, Spring Boot, AWS, microservices and asynchronous integrations, with broader experience across .NET, Ruby, PHP and frontend systems. Experienced in translating business requirements into pragmatic technical solutions, improving reliability and modernising systems incrementally.

CORE SKILLS

Backend & Architecture: Java · Spring Boot · Spring Security · Spring Batch · REST APIs · Microservices · Event-Driven Architecture · System Design · OOP · DDD · Design Patterns · TDD

Cloud & DevOps: AWS · SNS · SQS · Docker · Terraform · Ansible · CI/CD · Jenkins · GitHub Actions · Git

Data: Oracle · PL/SQL · SQL Server · MySQL · MongoDB · Redis · JPA · Hibernate

Additional: .NET · C# · ASP.NET MVC · Web API · Dapper · Entity Framework · Ruby on Rails · PHP · React · AngularJS · Selenium

Ways of working: Scrum · Kanban · Automated Testing · Legacy Modernisation · Technical Consulting · Distributed Teams

PROFESSIONAL EXPERIENCE

Senior Software Engineer / Technical Consultant | Sequenza IT Solutions · Sep 2020 – Present

- Consultancy and software development for Globalstar, supporting customer portals and related systems in a global satellite communications environment.
- Develop and maintain backend services, REST APIs and batch processes using Java and Spring Boot.
- Build and support asynchronous integrations using AWS SNS and SQS, alongside Oracle-based workflows.
- Work across application, integration and data layers to improve reliability, performance and maintainability.
- Contribute to incremental modernisation of legacy components while keeping critical workflows reliable.

Mid-Level Programmer Analyst | Olos Tecnologia · Jul 2020 – Aug 2020

- Developed APIs for system integration using .NET Framework, C# and Microsoft SQL Server.
- Created Windows Service applications for automated file import and export via FTP.

Software Developer | Helix Code · Jan 2019 – Jun 2020

- Developed web systems for real estate asset management using ASP.NET Core, React and MongoDB.
- Implemented features and maintained internal systems with ASP.NET Framework, Microsoft SQL Server and jQuery.
- Delivered solutions supporting administrative, commercial, financial, infrastructure and civil construction operations.

Professional Development | Sydney, Australia · 2014 – 2018

- Completed software development and project management studies while living in an international environment.
- Built English communication, autonomy and cross-cultural collaboration skills through four years in Australia.

Junior Software Developer | Locaweb · Jun 2013 – Oct 2014

- Developed and optimised email products using Ruby on Rails, MySQL and PHP.
- Worked with the Enterprise Applications team using C# and Microsoft Dynamics CRM to deliver a new CRM system.

Software Development Intern | BRQ · Jan 2013 – May 2013

- Developed Oracle and PL/SQL queries, technical specifications and software tests.

EDUCATION

MBA — Cloud Computing & DevOps · Impacta Tecnologia · Completed Feb 2026

MBA — Software Engineering · FIAP · Completed May 2020

Bachelor's Degree — Information Systems · FMU · Completed Jun 2021

Diploma — Project Management · Greenwich College, Australia · Completed Jul 2018

Diploma — Information Technology (Software Development) · Holmes Institute, Australia · Completed Aug 2017

Associate Degree — Systems Analysis and Development · FIAP · Completed Feb 2014

ADDITIONAL

International experience: Four years in Australia, including software development and project management studies.

Languages: Portuguese — Native · English — Fluent / Professional working proficiency

Volunteer experience: Marine conservation volunteering with the PADI AWARE Foundation during time in Australia.

TARGET

Open to Senior Software Engineering and Technical Consulting opportunities with Brazilian and international teams, including distributed and remote environments.
